SKILLS

- **Languages:** C++, JavaScript, C, PHP, Python
- **Frameworks:** HTML, CSS, Node.js, React.js, Tailwind CSS, Express.js
- **Tools/Databases:** MySQL, MongoDB, Git, GitHub, Figma, Postman
- **Soft Skills:** Problem-Solving, Leadership, Adaptability, Time Management

PROJECTS

- **UpCraft – Skill Training & Certification Platform | GitHub** — Oct' 25 - Dec' 25
  - Designed a role-based learning platform enabling workers to access short video courses, complete quizzes, and earn digital certifications.
  - Built interactive dashboards for profile management and progress tracking with smooth navigation and real-time data updates.
  - Strengthened system architecture by developing REST APIs and connecting MongoDB models for reliable data handling and storage.

  Tech Stack: React.js, JavaScript, Node.js, HTML5, CSS3, Express.js, MongoDB
- **Smart Waste Pickup Scheduling Platform | GitHub** — Apr' 25 - Jun' 25
  - Created a full-stack waste service management system featuring a secure login, dynamic pickup scheduling module, and a comprehensive administrative dashboard.
  - Improved task submission accuracy and user experience by implementing responsive layouts, validated input fields, and a dynamic volume estimator.
  - Secured operational flow by integrating structured MySQL database operations and verifying request handling for uninterrupted system reliability.

  Tech Stack: HTML, CSS, PHP, JavaScript, MySQL
- **Secure File Management & Access Control System | GitHub** — Jan' 25 - Mar' 25
  - Developed a confidential document-handling platform enabling controlled upload, download, and removal operations using permission-based authorization.
  - Implemented strong session-based access control, effectively safeguarding sensitive data and preventing unauthorized operations.
  - Enhanced file navigation and increased workflow efficiency by 30% through the design of a functional, intuitive dashboard.

  Tech Stack: PHP, MySQL, HTML5, JavaScript, CSS3, Tailwind CSS

TRAINING

UI/UX Design & Design Thinking | LPU | **LINK** — Jun' 25 - Jul' 25

- Executed comprehensive research, including empathy mapping, ideation, prototyping, and feedbackanalysis.
- Built theTrackIt application UI in Figma, creating wireframes and interactive prototypes that boosted task flow efficiency.
- Gained proficiency in design thinking workflows by converting empathy mapping and ideation insights into wireframes and interactive prototypes using Figma.

CERTIFICATES

- Generative AI | **Infosys** — Aug' 25
- Fundamentals of Network Communication | **Coursera** — Nov' 24
- Hardware and Operating Systems | **IBM** — Sep' 24

ACHIEVEMENTS

- Achieved Top 10 rank out of 2,000+ teams in a college hackathon.
- Solved 300+ Data Structures and Algorithms problems across multiple platforms.
- Achieved 4+ star ratings in C++ and Java, demonstrating strong understanding of OOP, data structures, and problem-solving.

EDUCATION

- **Lovely Professional University** — Phagwara, Punjab
  Bachelor of Technology in Computer Science and Engineering | CGPA: 7.89 — *Aug' 23 - Present*
- **Ambika Bhawani Public School** — Muzaffarpur, Bihar
  Intermediate | Percentage: 74 — *Apr' 22 - Apr' 23*
- **Scholars Home School** — Dehradun, Uttarakhand
  Matriculation | Percentage: 89 — *Apr' 20- Apr' 21*
